SUMMARY

Full-stack developer passionate about building modern web applications and workflow automation. Skilled in React, Next.js, Node.js/NestJS, and Flutter. Focused on writing clean code, designing practical architecture, and delivering high-performance applications that solve real-world business problems.

WORK EXPERIENCE

VLUX AI | Web / Software Developer Aug 2025 – Feb 2026

- Built and maintained landing pages, corporate websites, and booking applications for small and medium businesses (SMEs) in Australia, Canada, and Vietnam.
- Converted Figma design mockups into responsive React/Next.js front-end components and customized WordPress sites.
- Implemented basic SEO practices and optimized website performance and loading speeds for mobile and desktop screens.

HighScores.ai | Front-End Developer (Remote) July 2025 – Nov 2025

- Participated in migrating the core web platform from Angular to Next.js to improve page loading and user experience.
- Built responsive and reusable React/Next.js UI components based on Figma design mockups.
- Connected front-end interfaces with RESTful APIs and managed daily tasks in Jira under Scrum sprints.

COWI Autobiz | Automation & Workflow Assistant (n8n) June 2025 – Sept 2025

- Built and tested 15+ automated workflows using n8n to reduce manual data tasks for the team.
- Integrated Google Sheets, REST APIs, Webhooks, and Email/Telegram alerts to streamline daily business operations.
- Monitored workflow runs, debugged execution errors, and ensured stable daily data synchronization.

Independent Contractor | Freelance Web/Mobile Developer May 2025 – Present

- Developed small-to-medium web applications and cross-platform mobile apps using React, Next.js, NestJS, and Flutter.
- Worked directly with clients to analyze requirements, gather feedback, and deliver projects on schedule.

ICT Đông Á | Intern Full Stack Developer May 2025 – Aug 2025

- Worked in a team of interns to develop a souvenir e-commerce website using React, Node.js, and MongoDB.
- Developed features such as shopping carts, simple payment integration, and a real-time support chat via WebSockets.
- Assisted in designing basic RESTful API endpoints and improving front-end responsiveness.

IT Support + Chinh Nguyen Computer | IT Support Dec 2022 – Nov 2024

- Supported hardware maintenance, software installation, operating system setup, and basic network troubleshooting.
- Assisted local customers and staff in configuring computer systems, installing software, and setting up basic development tools.

PROJECTS

ALGOBATTLE | 1V1 CODING PLATFORM

- Role: Full-stack Developer | Team size: 3 (Personal Project)
- Link: www.algobattle.site
- Description: A real-time competitive programming platform featuring an automated secure code execution sandbox, dynamic Elo matchmaking pool via Redis, and real-time WebSocket communications.
- Technology Used: ReactJS, NestJS, Redis, Socket.io, Docker.

SOUVENIR E-COMMERCE WEBSITE

- Role: Full-stack Developer | Team size: 4 (Personal Project)
- Link: fe-webdoluuniem.onrender.com
- Description: E-commerce platform featuring a shopping cart, payment gateway integration, promotion/discount systems, and real-time support chat via WebSockets.
- Technology Used: ReactJS, Node.js, MongoDB, WebSockets.

HIGHSCORES.AI | WEB PLATFORM MIGRATION

- Role: Front-end Developer | Team size: 7+ (Client Project via HighScores.ai)
- Link: highscores.ai
- Description: Migrated the core company platform from Angular to Next.js, optimizing application loading speed, user interaction flows, and search engine visibility.
- Technology Used: ReactJS, Next.js, Angular, RESTful APIs.

LAMDA CAMERA SHOP (LUMIONIX)

- Role: Front-end Developer | Team size: 2+ (Client Project via Upwork)
- Link: www.lumionix.com
- Description: E-commerce web application for a photography equipment store, focusing on modern UI/UX, product showcasing, and high-speed page loading.
- Technology Used: Next.js, Vite, Node.js, MongoDB.

PRODUCT MANAGEMENT SOFTWARE (123FAKTURERA)

- Role: Front-end Developer | Team size: 4 (Client Project via Upwork)
- Link: www.123fakturera.se
- Description: An all-in-one management platform developed for a Swedish startup, helping product managers handle roadmaps, backlogs, and team collaboration.
- Technology Used: ReactJS, Vite, Node.js, PostgreSQL.

Other Client Projects (via VLUX AI):

- VLUXAI | Business Tech Solutions (Business Portal) — Link: vluxai.com
- Austrix | Windows & Doors Website (Construction Portfolio) — Link: austrix.vluxai.com
- Total Chicken | Food Order Website (Restaurant Booking System) — Link: restauntbooking.vluxai.com
- Karimi Dry Food | Vegetarian Landing Page — Link: karimidryfood.vluxai.com
- Soho Nails | Salon Website (Beauty Services Portal) — Link: sohonails.com.au
- HT Nails | Salon Website (Beauty Services Portal) — Link: htnails.com.au

TECHNICAL SKILLS

- Front-end (main): ReactJS, Next.js (SSR/SSG), Flutter & Dart, HTML5, CSS3, Tailwind CSS.
- Back-end & Databases: Node.js, NestJS, MongoDB, PostgreSQL, SQLite, Redis.
- Workflow Automation: n8n, Webhooks, REST API Integration, Cron Jobs.
- Tools & Others: Git, GitHub, Docker, Socket.io, WebSockets.
- Soft Skills & Languages: Teamwork & Communication, Problem Solving, English (Communicative).
